

Anthony Bent is a Young, Jamaican Man who first came to the U.S.A for Life-Saving surgeries. Since being here Anthony has had 4 major surgeries to save and sustain his life and many procedures over the years to manage his medical situation. Anthony has complex, rare colorectal/fistula problems.

A Door of Hope Ministries has sponsored Anthony while he has been in Florida for Humanitarian Medical Help. Anthony has an upcoming test and biopsy that are scheduled to be done at the Cleveland Clinic in Coral Springs, Florida. We are raising funds to help Anthony stay here in Florida and get the medical support that he needs.

Anthony accepted Christ in Jamaica when he was 15 years old, at a Gospel outreach service that A Door of Hope Ministries was having in Alligator Pond, Jamaica. A Short time later he was baptized in the Caribbean Sea. He is a miracle, a changed life and a servant- hearted follower of Christ. When he first came to the USA he was a teenager, he weighed only 65lbs and was in a dire state. Today Anthony is a dedicated representative of Christ always helping others and sharing his story wherever he goes. Anthony actively assists A Door of Hope Ministries by helping feed the homeless, sharing the Gospel through his testimony, participating in all projects and outreaches of the ministry. Anthony shows his love for Christ loudly with a quiet demeanor. You can support Anthony by clicking on the Donate button- be sure to reference Anthony Support in the special instruction section on Pay Pal.
